

Licence Information

Efofex has three different licence types. Apart from our individual licence, none of our licences require you to count copies.

Individual Licence

An individual licence allows the use of the software by at most one person at any one time. The product may be used by any number of people and may be moved from computer to computer, location to location, as long as there is no possibility that it will be used by more than one person at any one time.

An institution may upgrade its individual licence to a full site licence or distribution licence by negotiation with Efofex Software or our nominated agents.

Individual licences are normally purchased by individual teachers or schools with very few computers.

Full Site Licence

A full site licence allows the institution to place copies of the software on as many computers as required within ONE SITE of the institution. The software may be in use on all of these computers concurrently. The software may not be distributed to students or customers for use outside ONE SITE of the institution or on a personal computer within the institution.

****SPECIAL NOTE****

Efofex considers use, at home, by a teacher employed at an institution holding a Full Site Licence to be fair use PROVIDING such use is solely restricted to producing materials for use within the institution.

Distribution Licence

A distribution licence allows the institution to place copies of the software on as many computers as required within ONE SITE of the institution AND allows the institution to distribute the software to persons directly associated with ONE SITE of the institution (eg. students, teachers, administration staff, gardeners ...) at no extra charge to the institution. Efofex Software gives a school holding a distribution licence the right to charge a fee of not more than \$15 per copy to cover the costs of distribution.

Efofex suggests that distribution be carried out by:

- Placing an UNREGISTERED version of the software in a publicly accessible location (eg a web site).
- Making your Registered Name and Registration Code available through some controlled distribution system.

You should NEVER place a REGISTERED version of the software OR your Registration Code in a location accessible to the general public. In particular they should not be placed on a web site.

Efofex requests that institutions do NOT suggest that the Unregistered version be downloaded from our web site. At this point in time we do not have the capacity available to service large numbers of downloads.

All of our products are protected by copyright law and international copyright treaty. All licences allow you to make archive copies of the software for the sole purpose of backing up your software and protecting your investment.

Additional Notes

1. A Full Site licence allows you to use the Efofex product on any computer within ONE SITE of the institution.
2. A Distribution licence, in addition to the rights provided in a Full Site Licence, allows you to provide copies of the Efofex product to any person associated with ONE SITE of the institution. You are NOT permitted to provide the software to another institution.
3. To assist you with distribution of the packages, the CD contains a "Redistribution" subdirectory. In this subdirectory you will find packed versions of the products that are suitable for distribution on floppy disk or via a web site. Both the Full Site and Distribution Licences allow you to distribute these packed files and the quick reference card (if applicable) as many times as required within the terms of your licence.
4. Most of the documentation is provided in PDF format. The Adobe Acrobat PDF reader is available as a free download from the Adobe site (www.adobe.com). You may need to provide printed versions of some sheets to students who do not have Internet access. You are licenced to provide these printed versions.
5. To distribute the product you will need to provide a copy of the downloaded executable AND your registration code. You may, at your discretion, charge a fee of up to \$15 to cover the costs incurred in distribution. If your institution make a small profit distributing the software it is the institution's to keep and Efofex Software makes no claim to it.
6. Copies distributed under a distribution licence need not be returned when the person leaves the institution.
7. The distribution licence is not limited in duration or number. Your institution may distribute this program indefinitely, to anyone associated with the institution, without further cost. Efofex Software may, at our discretion, charge an UPGRADE FEE for any future versions of the software which provide significant improvements to the program's functions. We will provide minor upgrades or maintenance releases as a FREE download from our Web site. You are under NO obligation to purchase any future upgrades and may continue to distribute the current version indefinitely.

8. The institution is free to choose a convenient mode of distribution BUT Efofex Software specifically disallows any method which makes the REGISTRATION CODE accessible to people not associated with the institution. In particular we disallow the distribution of the REGISTRATION CODE as a download from a publicly accessible web page.
9. Efofex requests that you do NOT ask students to download their copy from our web site. Currently we do not have the capability to serve large numbers of downloads. You are permitted to place a copy of the download on YOUR web site and make that copy available for download by your students.
10. This information is provided for your convenience and does not override any statement in the full licence descriptions.

Transferring the Software

You may transfer all of your rights to use the software to another person provided that you transfer to that person all the disks, documentation and any other materials provided. Once you have transferred the software you no longer have the right to use it. The right to use the software belongs solely to the new owner who must comply with all conditions listed in this statement.

Distribution Licences are not transferable without agreement, in writing, from Efofex Software.

Upgrades

Upgrades to the software do not constitute a new product and do not purchase a new licence. Old versions of the software can not be transferred to a new owner.

Except as provided in this statement, you may not transfer, rent, lease, lend, copy, modify, translate, sublicense, time-share, or electronically transmit or receive the software, media or documentation.

Limited Warranty

Efofex Software warrants the physical media and documentation to be free of defects in materials and workmanship for a period of ninety days from the original purchase date. If Efofex Software receives notification within the warranty period of defects in materials or workmanship, Efofex Software will replace the defective items.

The entire and exclusive liability for breach of this limited warranty will be replacement of the defective media or documentation and shall not be extended to any claim for any other damages, including but not limited to, loss of profit, data or use of the software. In no event will Efofex Software's liability for damages ever exceed the actual price paid for the software, regardless of the form of the claim.

Efofex Software specifically disclaims all other warranties, representations, or conditions, express or implied. Specifically Efofex Software makes no representation or warranty that the software or documentation is "error free".
